SRI BALAJI

Frontend Developer

📍 Chennai, TN, India 600043   ✉ developer.sribalaji@gmail.com   📞 (+91) 93427 52374   in linkedin.com/in/sri-balaji

CAREER OBJECTIVE

Aspiring to join a dynamic organisation where my proficiency in Frontend development meets an environment that encourages innovation and growth. With a focus on frontend excellence, I am driven to contribute my skills to projects that redefine user experiences. Eager to further develop my expertise, I am seeking a collaborative space that values continuous learning and where my contributions can be instrumental in the organization's success.

EXPERIENCE

Software Engineer - Frontend

Born Group - TechM Company, Chennai, Tamil Nadu

Jan 2022 - Present

- **Project Achievements:** Significantly contributed to the success of diverse projects, such as UPS Movin, Jaagore Tea, Neom Constructions, Saudi Eleagues, and Gamers8 esports.
- **Bespoke Drupal Theming:** Crafted visually appealing and user-friendly interfaces by tailoring Drupal themes, ensuring they met and exceeded project expectations.
- **Collaborative Development:** Worked seamlessly with Backend Developers to design and implement custom modules, fostering a cohesive development process and ensuring robust, scalable solutions.
- **Onboarding and Mentorship:** Facilitated smooth onboarding of new developers, providing comprehensive training and ongoing support, contributing to a collaborative team environment.
- **Advanced Drupal Theming Techniques:** Applied advanced theming techniques within the Drupal framework, adhering to industry best practices, resulting in visually appealing and intuitive user interfaces.

Frontend Developer

Hogarth WorldWide, Chennai, Tamil Nadu

Apr 2020 - Jan 2022

- **Twig Templates Management:** Orchestrated Twig template management in Drupal for projects like Vertex Drug sites, elevating frontend aesthetics.
- **Collaborative Component Development:** Teamed up with Backend Developers, crafting integrated components crucial for robust solutions on diverse projects.
- **Version Control Proficiency:** Demonstrated Git and JIRA expertise, ensuring an organised development process, vital for project milestones.
- **Drupal Theming:** Applied advanced theming techniques, enhancing interfaces on Vertex Drug sites and contributing to project excellence.
- **Collaboration & Timely Delivery:** Collaborated across teams, notably with Backend Developers, ensuring timely deliveries and surpassing client expectations, especially on high-impact projects.
